

CRAZY STRAW VALENTINE FLAGS

These Valentine flags are so easy, but also really fun!

What You Need:

- Scissors
- Glue or Double Sided Tape
- Fun Straws of any kind

Once you cut out the flags (cut along the dotted lines), just place glue on the back of the flag and wrap it around any straw of your choice. You could also use double sided tape for a less-messy assembly.

Don't forget to sign your name so all the kids know who this fun Valentine is from!
